

Agenda | *Route 25: Agenda for Autonomous, Intelligent, Interoperable and Inclusive Mobility*

Leader | CAPGEMINI PORTUGAL, S.A.

Description | Route 25 will define the future of mobility by "positioning Portugal at the forefront of intelligent and inclusive transport technologies".

Start date | 01-10-2022

End date | 30-09-2025

Total budget | 51.331.437,19 EUR

Objectives, activities and expected results

Route 25 - Agenda for Autonomous, Intelligent, Interoperable, and Inclusive Mobility" leverages the research and development of disruptive technological solutions for Autonomous, Intelligent, Interoperable and Inclusive Mobility, creating a new value chain in Portugal in technology intensive activities and territorial cohesion, generating EUR 80 million in sales and 488 jobs, through 8 activities (WP - Work Packages):

WP1: Assisted and Autonomous Driving for Safe Mobility

WP2: Digital Experience & Adaptive Connectivity for Cooperative Mobility

WP3: Connected Infrastructures for Resilient and Inclusive Cities

WP4: Intelligent Infrastructures for Low-Carbon Intercity Mobility

WP5: Large-Scale Demonstrators

WP6: Scientific and Technological Training

WP7: Communication, Dissemination and Exploitation

WP8: Route 25 Coordination

The Agenda will result in the market placement of 47 innovative and disruptive PPS related to intervention areas such as assisted and autonomous driving for safe mobility, a digital experience for cooperative mobility, connected infrastructures for resilient and inclusive cities and smart infrastructures for low-carbon intercity mobility - it is the only Agenda to address these areas and has the necessary PPS, dependent and interconnected, to achieve the defined objectives.
