

## **Project Fact Sheet**

**Project Title** | A+CLASS - Alliance for Climate Leadership

**Project Code** | 101123342

**Operation Type** | Specific Grant Agreement No. 1 for the Cities Mission Platform

**Operation Code** | HORIZON-RIA-SGA-NZC-101121530

**Region of Intervention** | Portugal

**Lead Promoter** | Guimarães City Council

**Co-promoters** |

- Laboratório da Paisagem
- Lisbon City Council
- Porto Ambiente
- Porto Digital
- IST-ID
- Porto City Council
- Porto Energy Agency

**Start Date** | 17.03.2025

**End Date** | 16.09.2026

**Total Eligible Investment** | €1,499,649.32

**Funding Program** | NetZeroCities

### **Brief Project Description** |

The A+CLASS – Alliance for Climate Leadership for Actionable Sustainability Solutions project brings together the three Portuguese Cities Missions – Guimarães, Lisbon, and Porto – to address two major common challenges in implementing their climate neutrality strategies:

1. **The capacity to measure to better act**, ensuring that appropriate monitoring systems for the Cities' Climate Contracts (CCC) are operational, allowing timely tracking of implementation progress while also supporting the production of new knowledge to enable more impactful iterations and the evolution of Action and Investment Plans.
2. **The capacity to act collectively in a coordinated manner**, avoiding fragmented action and duplication of efforts, while unlocking private capital, thereby accelerating pathways toward climate neutrality.

**Funded by  
the European Union**
